Join NAMI

Becoming a part of NAMI!

• Subscribe to the latest mental health updates
• Participate in an online discussion group
• Learn how to advocate in your community
• Add your voice to the mental health movement in Georgia.

Become a NAMI member at all three levels of the organization—national, state and local—with one payment! We have three membership rates depending on what makes the most sense for you:

_____ $60 per year for a Household membership that includes all members of a household living at the same address
_____ $40 per year for a Regular membership which is an individual membership for one person
_____ $5 per year for an Open Door membership for an individual member with limited financial resources

Donation $__________

Nearly one in ten Georgia children ages 2 to 17 years have one or more diagnosed emotional, behavioral, or developmental conditions.

Suicide is the third leading cause of death among 10-24 year old’s in the state.

NAMI Georgia’s Signature Programs and new initiatives provide the vital early intervention strategies needed for better recovery.

The mission of NAMI Georgia is to empower affiliates to create communities where all affected by mental illness find hope, help, and acceptance through support, education, and advocacy. We offer an array of peer-led education and training programs for students, parents, educators, law enforcement, and other community members committed to the social and emotional well-being of Georgia’s children, young adults, and families.

NAMI Ending the Silence
An engaging presentation that helps audience members learn about the warning signs of mental health conditions and what steps to take if you or a loved one are showing symptoms of a mental illness. NAMI Ending the Silence presentations are designed for middle and high school students, school staff, and families.

NAMI Basics
A 6-week education program for parents and family caregivers of children and teens who are experiencing symptoms of a mental health condition or who have already been diagnosed. NAMI Basics is taught by parents or family caregivers with lived experience.

Crisis Intervention Team (CIT-Youth)
A curriculum designed to support early childhood teachers and administrators, counselors, social workers, administrators, caregivers, and other stakeholders in their understanding of developmentally relevant mental health indicators.

This 20-hour training program is designed to equip law enforcement, resource school officers, educators, and other youth serving professionals with the skills to recognize and assist children and youth in crisis with social, emotional, and behavioral issues.
